

XYZ Technologies — Hiring Policy (TEST VERSION)

Role: AI Engineer

This is a minimal test policy document with a single screening question, used to quickly verify the interview pipeline before using the full policy.

Required Screening Question

1. Walk me through your resume — particularly the projects or experience most relevant to AI/ML.

Guide: Ask this one question, listen to the candidate's answer, and end the screening round. Do not ask any further questions in this test version.
